Access keys authenticate your applications' requests to this storage account. Keep your keys in a secure location like Azure Key Vault, and replace them often with new keys. The two keys allow you to replace one while still using the other.

Remember to update the keys with any Azure resources and apps that use this storage account.

Get Started

Sign in with your Azure account to access all of your Azure resources.

Troubleshooting Guide

Attach to a resource

Don't have permissions to access Azure subscriptions? You can connect to individual storage resources using various authentication methods.

Tasks

View Azure resources

See your subscriptions and Azure resources all in one place.

Manage accounts and subscriptions

Manage your Azure accounts and choose which subscriptions you want to see.

Connect to Azure resources

Sign into Azure or attach to individual storage resources.
