Azure Content Delivery Network

The Azure Content Delivery Network (CDN) is designed to send audio, video, images, and other files faster and more reliably to customers using servers that are closest to the users. This dramatically increases speed and availability, resulting in significant user experience improvements.

Or upload an image file from your computer:

Browse...

Choose File
(or drag and drop it)

How to take a screenshot online

To **save a screenshot online** in your browser without any additional software, you need:

1. Press the **PrintScreen** key (PrtScr) on the keyboard – the screenshot will be copied to the clipboard *(to take a screenshot of the currently active window press Alt + PrintScreen).*
2. If you are on the main page of our service, press **Ctrl+V** (paste).

You can also upload a picture simply by pressing "Browse" *(or dragging and dropping the file).*

Screenshot editing

After uploading and saving the picture to the server, you will get a short link. Share the link with anyone you'd like, so that they can open the saved image from any computer or mobile device.

Right after saving a screenshot, you can **edit the image**: crop it, paint out any unnecessary areas, put arrows, frames or add a caption.

In the **screenshot editor** the following tools are available: Pencil, Line, Arrow, Frame, Text, Blur, Crop. [More...](#)

Activate Windows

Go to Settings to activate Windows.
